

CSU-13B / P HP

High-Performance Anti-G Trousers

THINKING SAFETY

CSU-13B / P HP

High-Performance Anti-G Trousers

The AUTOFLUG High-Performance Anti-G Garment CSU-13B/P HP is designed for the operational use with modern fighter aircraft. The AUTOFLUG CSU-13B/P HP bridges the gap between the standard Anti-G Garment and modern full body protection systems such as the AUTOFLUG G-Multiplus® or PAGE®.

Main characteristics of CSU-13B / P HP are:

- Reliable G-protection throughout the entire envelope of modern jet fighter (F-16, Mirage-2000, Hawk, Pilatus PC-21 and similar aircraft)
- AUTOFLUG specification greatly exceeds Mil spec
- Outer garment conform to requirements
- Made out of non-stretchable material
- Heavy duty fabrics, extra stitchings and special reinforcements for added safety and service life
- Optimized abdominal bladder for enhanced pilot comfort
- New high-performance zippers
- Available in 7 sizes
- Can be customized with pockets
- Available in different colours
- Different air connectors can be adapted
- Size XXS available
